

Mijn NN Zakelijk

Reporting disability

Nationale – Nederlanden has an automatic link with the Employee Insurance Agency (UWV) to keep the status of employees up to date.

We automatically receive the following changes in the lives of your employees via the UWV

- Notification of incapacity for work
- Change in degree of incapacity for work
- Notification of recovery

If there is incapacity for work, this is reflected in the premium specification.

In the event of a certain degree of disability or full incapacity for work, Nationale – Nederlanden may pay part (or even all) of the premium. You will see this reflected in your premium specification.

Moet een arbeidsongeschikte werknemer ook uit dienst worden gemeld?

Als wij de premiebetaling van een werknemer over hebben genomen en deze werknemer treedt vervolgens uit dienst, dan kun je dit alleen via mail aan ons doorgeven. Vragen hierover kan jou contactpersoon bij Nationale – Nederlanden beantwoorden of je kunt terecht bij jou adviseur.

What do you do when incapacitated employee leaves the employment?

If we have taken over the premium payment of an employee and this employee subsequently leaves employment, you can only inform us by e-mail. Questions about this can be answered by your contact person at Nationale – Nederlanden or you can contact your pension advisor.
